The Memorial services held by Claudine Lodge No. 179, Knights of Pythias, at the First Baptist Church Sunday afternoon, were largely attended and a gratifying success. The music was fine, the singing splendid and the speech of Hon. Gilbert Lamb, one of the best ever delivered here. The concluding exercises at the Cemetery over the graves of departed brothers were solemn, tear compelling, and calculated to cement the living closer together. This is said to be one of the best lodges in the state.

BEAT IT! BEAT IT! CHEVROLET

The mechanical construction of the Chevrolet is equal to that of any \$1000 to \$1500 machine on the market, and it rides equal to any car at any price.

Some of the special features of this car are the bronze bearings backed with babbit lining, which makes them stronger and they will not burn out. The crank shaft is 1 7/8 inches while other small cars are only 1 1/4. It is also three bearing. It has a three quarter floating rear axle and a clutch collar that has them all beaten. There are three speeds forward and reverse and it can go two miles or fifty on high, which makes it an exceptional hill climber. The engine test is 22 on A. L. A. M. rating and 23 on brake test. The car weighs 1700 pounds and has 102-inch wheel base. All these advantages you get in the Chevrolet; but come in and let us demonstrate it to you, whether you are a prospective buyer or not.
